Summary

I am a seasoned Magento Developer with over 6 years of experience in developing and enhancing Magento-based applications and websites. I specialize in customizing Magento features to meet diverse client needs, building custom modules and APIs, and optimizing theme customization and multi-store management.

As a member of software development teams, I have improved my communication skills and learned the value of teamwork. My involvement in UAT across various projects has also provided valuable experience in client interaction, including handling international clients effectively.

Experience

SENIOR MAGENTO DEVELOPER | EVAMP & SAANGA | 1ST JAN 2019 – PRESENT

- Developing and customizing Magento themes to ensure they are responsive and adhere to the latest web design trends.
- Creating and integrating custom Magento extensions to add new functionality or modify existing features.
- Optimizing Magento store performance by analyzing and improving load times and efficiency.
- Ensuring Magento security by applying patches, updates, and implementing best practices to prevent vulnerabilities.
- Setting up and configuring Magento stores, including product catalogs, categories, and payment gateway integrations.
- Managing data migration projects to transfer existing data from other e-commerce platforms to Magento.
- Providing technical support and troubleshooting for Magento-related issues to clients or internal teams.
- Collaborating with front-end developers to ensure seamless integration of UI/UX elements with Magento's backend.
- Conducting code reviews and maintaining version control to ensure high-quality code and to track changes over time.
- Integrated third-party services like CRM, ERP, and marketing automation tools using APIs.
- Participating in project planning and estimation, providing technical insights for e-commerce solutions.

WEB APPLICATION TRAINING | ARETE APP'S | 1ST NOV 2017 – 30TH APRIL 2018

During web application training I have learned PHP and WordPress.

- Worked on different WordPress website customizations.

INTERNSHIP | ATTORNEY GENERAL OFFICE (AGFP) | 1ST APRIL 2016 – 30TH APRIL 2017

During one-year internship I was working on different tasks.

- Provided support for software and operating system installations while maintaining online records for the library and attendance management system.
- Update content on the official website on Attorney-e-General Office.
